ADVANCED SAFETY CERTIFICATE

Job Safety Analysis (JSA)

Tuesday, January 31, 2017, or Tuesday, February 21, 2017, or
Thursday, March 30, 2017, or Monday, May 22, 2017, or
Friday, June 9, 2017, or Friday, August 18, 2017, or
Monday, October 23, 2017, or Friday, December 1, 2017

8 am – 4:30 pm

TRAINING GOALS

Job Safety Analysis is a proven process for controlling operating hazards and costs. Get a step-by-step overview of the process, and define your role in making it effective. Through lecture, demonstrations, and workshops, you will learn how to develop and manage a JSA program in your workplace. You'll also learn how to enlist participation from line employees, supervisors, and upper management.

What you will learn

- Important safety and health terminology
- The relationship of JSA to continuous improvement in your organization
- The safety and financial benefits of using JSA
- How to gain support for and participation in the JSA process from line employees, supervisors and upper management
- Key requirements for a successful JSA
- How to recognize the hazards inherent in task performance
- How to develop appropriate solutions and hazard controls
- How to complete a JSA form correctly
- How to use JSA to develop efficient procedures that reduce personal injuries and operating costs

1 Day Course, 0.65 CEUs

Fee: Member \$325 per person / Non-member \$425

Advanced registration required. Please visit our website or call for details.

*Based on payment received at least 10 days prior to class.
