[Advanced Safety Certificate Series](#)

Job Safety Analysis (JSA)

**Friday 3/9/18 or Monday 5/21/18 or
Friday 7/27/18 or Monday 10/1/18 or
Thursday 12/6/18**

8 am – 4:30 pm

TRAINING GOALS

Job Safety Analysis is a proven process for controlling operating hazards and costs. Get a step-by-step overview of the process, and define your role in making it effective. Through lecture, demonstrations, and workshops, you will learn how to develop and manage a JSA program in your workplace. You'll also learn how to enlist participation from line employees, supervisors, and upper management.

What you will learn

- Important safety and health terminology
- The relationship of JSA to continuous improvement in your organization
- The safety and financial benefits of using JSA
- How to gain support for and participation in the JSA process from line employees, supervisors and upper management
- Key requirements for a successful JSA
- How to recognize the hazards inherent in task performance
- How to develop appropriate solutions and hazard controls
- How to complete a JSA form correctly
- How to use JSA to develop efficient procedures that reduce personal injuries and operating costs

1 Day Course, 0.65 CEUs

Fee: Member \$325 per person / Non-member \$425

Advanced registration required. Please visit our website or call for details.

**Based on payment received at least 10 days prior to class.*
