REGULATORY COMPLIANCE SERIES

Lockout/Tagout

Thursday 1/4/18 or Friday 4/27/18 or Thursday 8/30/18

1:00 pm – 5:00 pm

Are you in compliance? Lockout/Tagout is one of OSHA's Top 10 "Most Serious Violations" and Top 10 "Most Often Cited Violations." Our facilitators are safety experts who will break down the regulation and answer your site-specific questions. National Safety Council safety experts will guide you through interactive discussions and pair activities relating to the OSHA lockout/tagout regulation. Network with your peers and apply what you learn from this seminar at your worksite.

Understand key elements of the Lockout/Tagout regulation (29CFR 1910.147, Subpart J) issued by the Occupational Safety and Health Administration. This seminar is intended for those team leaders, middle managers, human resource personnel, safety and health committee members, and other employees who have recently been appointed to safety and health responsibilities or who are seeking the knowledge about the lockout/tagout OSHA regulation.

This seminar will help you:

- Establish the purpose for lockout/tagout
- Identify the key components of an energy control program
- Identify the six main elements that should be contained in lockout/tagout procedures
- Identify key elements of a periodic inspection of the energy control device to restore energy and equipment
- Explain group lockout/tagout
- Identify steps to follow to perform testing or positioning on a piece of equipment being repaired
- Recognize the importance of "best practices" for the most effective lockout/tagout program implementation and operation
- Start and implement a lockout/tagout program at your facility
- Set priorities for actions once you get back to your facility

4-hour course

Member \$99* per person / Non-member \$135* per person

Advanced registration required. Please visit our website or call for details.

*Based on payment received at least 10 days prior to class. Late registration fee applies thereafter.
