There is no better place to train your lift truck operators than at your own location, and now you can do just that with absolutely guaranteed results. The National Safety is proud to introduce a true technological advancement in packaged safety training: our brand-new **NSC Lift Truck Operator Training Program**. This comprehensive program covers everything from order pickers to side loaders to rough terrain. Any operator, novice or seasoned veteran will benefit from the course. The Train the Trainer program will prepare any *qualified trainer to facilitate the course* in full confidence thanks to our step-by-step guide. The trainer candidate will learn to incorporate the latest safety content and learning principles in this multidimensional, OSHA-compliant program through which they will train your team through sight, sound and mind:

- Live-action, high definition video makes safe operation crystal clear
- Real-life stories from working operators reinforce the course material
- Superbly-detailed animations and graphics aid learning and retention
